

Description

ASD 531 offers quick commissioning and the highly professional monitoring of smaller areas and premises, and all without the need for training. The detector is configured directly on the device without the need for a PC and operation is uncomplicated. As with the two larger models, it is also equipped with the tried-and-tested HD detector with LVSC (large-volume smoke chamber). This results in outstanding sensitivity combined with an impressively long service life.

Advantages

- Split-second, highly sensitive reaction to incipient fires
- Extremely fast alarm transmission and alarm response
- Simple handling
- Three different models for scalable, cost-effective operation
- Monitoring areas ranging from single facilities up to areas measuring 5,600 m²
- Developed in Switzerland, made in Germany
- Robust and with a very long service life
