

Description

VIC Electromagnetic Door Holders are attractively designed for easy and convenient installation. With adjustable contact plate, it can fit in any door angle. The Electric Door Holders have holding force of 600N which is suitable especially for fire doors and smoke barrier doors. During a fire emergency, the device releases the door when signaled by the fire alarm system, which in turn will shut the door keeping reducing risk for the fire to spread. The VIC Electromagnetic Door Holders is also equipped with a manual release switch to release the door manually or for testing purposes. Each unit is housed in high grade ABS Polycarbonate casing and has a built-in Brass Pin Instant Release that is designed for better reliability and performance.

Technical Specification

| | |
|-------------------|----------------------|
| Product Model | : GHL-300 |
| Size | : 86mm x 65mm x 53mm |
| Net Gross Weight | : 600g / 674g |
| Working Voltage | : DC24 \pm 5V |
| Operating Current | : \leq 80mA |
| Holding Force | : \geq 600N |
| Input Power | : 1.5W |

Advantages

Comes with Manual Release Switch

Residual Magnetism Release Brass Pin - for instant release.

Holding Force can be adjusted

High holding force
